Mobile Nursing Computing Solutions: Why the Resistance to Adopt?

Tuesday, February 15, 2:15 PM - 3:15 PM

Description:

Mobile nursing solutions are being deployed at point-of-care to solve existing workflow inefficiencies. Two industry veterans discuss why these solutions are facing significant hurdles to widespread adoption and suggest innovative ways to gain adoption.

Speaker(s):

Gregg Malkary, MS, BA
Managing Director, Spyglass Consulting
Ann Farrell, BSN, RN
Principal and Senior Consultant, Farrell Associates

Contact speaker **Gregg Malkary**

Level:

Intermediate

Objectives:

- Discuss key market trends and drivers that are influencing healthcare organizations to deploy mobile nursing solutions
- Examine limitations and opportunities for diverse mobile computing solutions (e.g. PDAs, TabletPCs, and Computers on Wheels)
- Identify the types of mobile nursing solutions that are gaining traction at healthcare organizations nationwide
- List the challenges to IT adoption of mobile nursing solutions
- Explore the unparalleled opportunity for nursing to exploit the power of IT
